

Pre Public Examination

GCSE Mathematics (Edexcel style)

May 2018

Foundation Tier

Paper 2F

Name

Class

TIME ALLOWED

1 hour 30 minutes

INSTRUCTIONS TO CANDIDATES

- Answer **all** the questions.
- Read each question carefully. Make sure you know what you have to do before starting your answer.
- **You are permitted to use a calculator in this paper.**
- Do all rough work in this book.

INFORMATION FOR CANDIDATES

- The number of marks is given in brackets [] at the end of each question or part question on the Question Paper.
- **You are reminded of the need for clear presentation in your answers.**
- The total number of marks for this paper is **80**.

Answer ALL questions.

Write your answers in the spaces provided.

You must write down all the stages in your working.

Question 1.

Use your calculator to work out 3.65^2

.....

(Total 1 mark)

Question 2.

34% of the cats do not have blue eyes.

Work out the percentage of the cats that **do** have blue eyes.

.....%

(Total 1 mark)

Question 3.

Write 50 out of 88 as a fraction.

Give your fraction in its simplest form.

.....

(Total 1 mark)

Question 4.

The probability of an event occurring is 0.7.

What is the probability of the event **not** occurring?

.....

(Total 1 mark)

Question 5.

Here is a list of numbers.

13 21 39 27 26 60 33

From the numbers in the list,

(a) Write down all the odd numbers

.....
(1)

(b) Write down a multiple of 11

.....
(1)

(c) Write down a factor of 39

.....
(1)

(d) Write down a cube number

.....
(1)

(Total 4 marks)

Question 6.

Sam throws a dice 9 times.

Her father gives her £1 if the median score is more than 3.

The dice scores are

6 1 2 6 4 1 5 3 6.

Does Sam win the £1?

Explain your answer.

.....
.....
.....
.....

(Total 2 marks)

Question 7.

The Harrison family sets off on a 52.4km journey to visit their relatives.

They have driven 22,500m so far.

How much further do they have to drive?

.....km

(Total 3 marks)

Question 8.

Here are the first five terms of a number sequence.

-25 - 21 - 17 - 13 - 9

(a) Write down the next two terms of the sequence.

..... ,

(2)

(b) Explain how you found your terms.

.....
.....

(1)

(c) Explain why -50 is not a term of this sequence.

.....
.....

(1)

(Total 4 marks)

Question 9.

Kate thinks of a number.

She subtracts 4 from the number and then divides the answer by 2.

Kate thinks of the number 24.

She writes down

$$24 - 4 \div 2 = 22$$

What should Kate have written down?

..... =
(Total 2 marks)

Question 10.

Compared to 2017, the number of schools in England in 2018 increased by 4%.

There were 1095 more schools in 2018.

How many schools were there in 2017?

.....
(Total 2 marks)

Question 11.

Bob the builder has a rule to work out how long it will take him to tile a wall.

50 minutes preparation time and
then 9 minutes for each tile.

(a) How long will he need to lay 33 tiles?

Give your answer in hours and minutes.

.....hours.....minutes
(2)

(b) Bob spent 9 hours and 14 minutes tiling a bathroom.

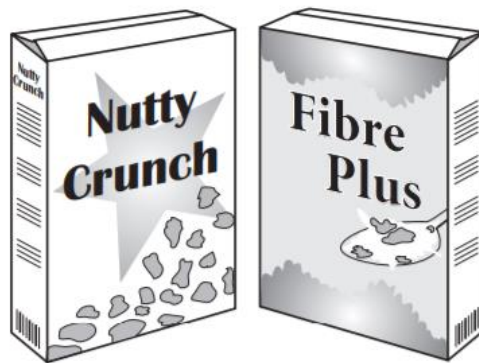

How many tiles did he lay?

.....tiles

(2)

(Total 4 marks)

Question 12.

The table below shows some nutritional information for 150g of each of these cereals.

		Nutty Crunch	Fibre Plus
Energy	kJ	1638	1452
Sugar	g	35	21
Salt	g	1	1.5
Fibre	g	3	5
Fats	g	2.5	1.5

(a) In a 150g serving,

(i) which cereal supplies more energy?

.....

(1)

(ii) how many more kilojoules of energy does it supply?

.....kJ

(1)

(b) Nutty crunch is supplied in 510g packets and Fibre Plus in 600g packets.

(i) How much sugar does a 510g Nutty Crunch packet contain?

.....g
(2)

(ii) How much more fibre does a 600g packet of Fibre Plus contain than a 510g packet of Nutty Crunch?

.....g
(2)
(Total 6 marks)

Question 13.

(a) Write £6.40 : £4.80 : £8 in its simplest form.

.....
(2)

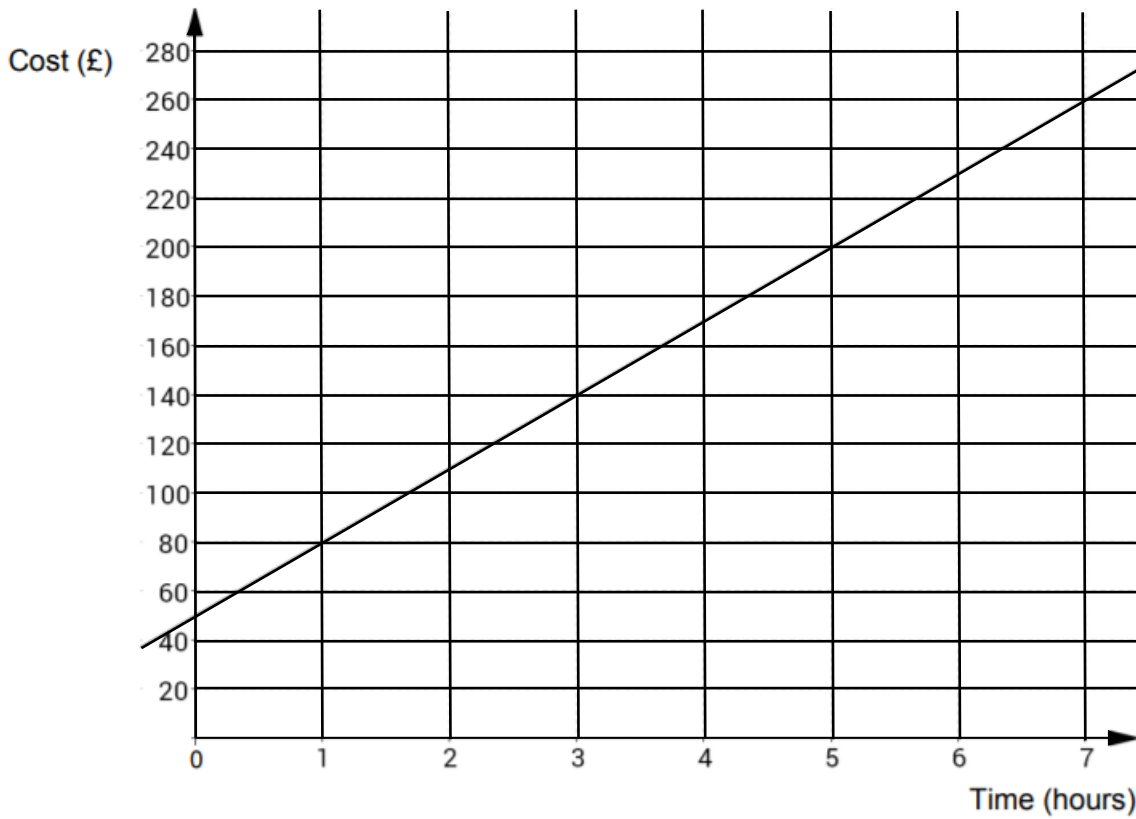

(b) Write a number on the **dotted line** to complete the statement below.

$$10 : 4 = \text{.....} : 1$$

(1)
(Total 3 marks)

Question 14.

Thomas, the builder, calculates a bill as £ H per hour worked plus a £ C fixed call out charge.

(a) What is Thomas' fixed call out charge?

£.....
(1)

(b) Find the cost of,

(i) 5 hours of work

£.....
(1)

(ii) 2 hours of work

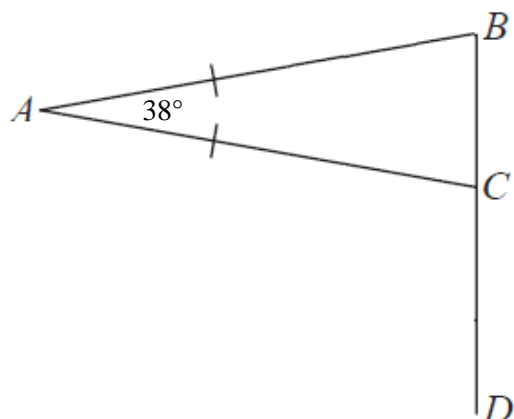

£.....
(1)

(c) How many hours of work did Thomas do, if he charged £420?

.....hours.....minutes
(2)

(Total 5 marks)

Question 15.

BCD is a straight line.

$AB = AC$

Angle $BAC = 38^\circ$

Show that $ACD = 109^\circ$

Give a reason for each stage of your working.

(Total 4 marks)

Question 16.

When cold, an iron rod is 350cm long. After it is heated, the length of the rod increases to 375.5 cm.

What is the percentage increase in the length of the rod?

Give your answer to one decimal place.

.....%

(Total 3 marks)

Question 17.

On a market stall the ratio of apples to pears to oranges is 3 : 4 : 5.

(a) What fraction of the total fruit are pears?

.....

(1)

(b) There are 63 apples.

Work out how many oranges there are.

.....oranges

(2)

(Total 3 marks)

Question 18.

Sammy notices that in the US, service charge in restaurants is usually 20% of the price of the bill.

In the UK it is usually 16%.

A pizza in a chain restaurant in the US, costs \$13 and in the UK it costs £8.

After the service charge has been added, where is it cheaper to eat?

\$1 = £0.60

(Total 4 marks)

Question 19.

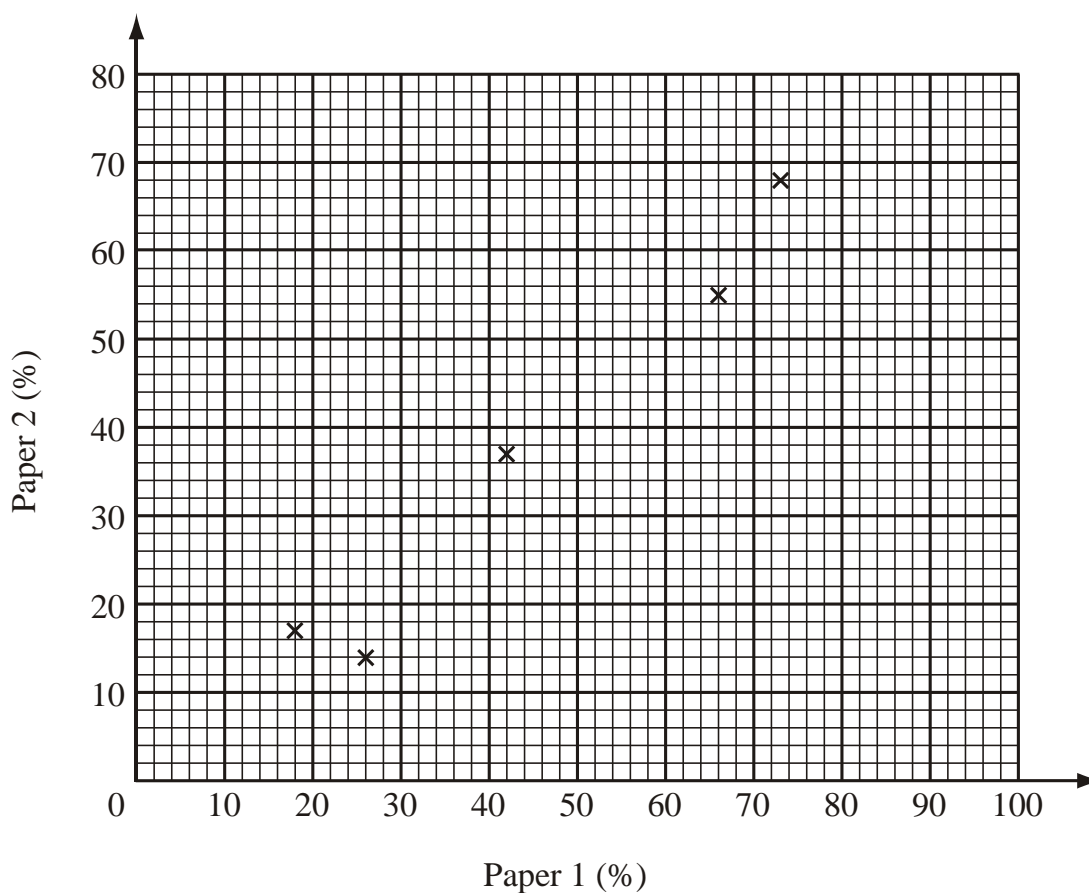

The table below shows the percentages obtained by 10 students on Paper 1 and Paper 2 of an examination.

Student	A	B	C	D	E	F	G	H	I	J
Paper 1	73	26	66	42	18	50	78	84	26	57
Paper 2	68	14	55	37	17	42	74	77	24	49

(a) Complete the scatter diagram on the grid below.

The first 5 students' percentages have been plotted.

(2)

(b) Tariq scored 48% on Paper 1, but was absent for Paper 2.

By drawing a line of best fit, estimate his percentage score on Paper 2.

.....%

(2)

(c) Why is your answer to part (b) only an estimate?

.....

(1)

(d) Calculate the gradient of your line of best fit.

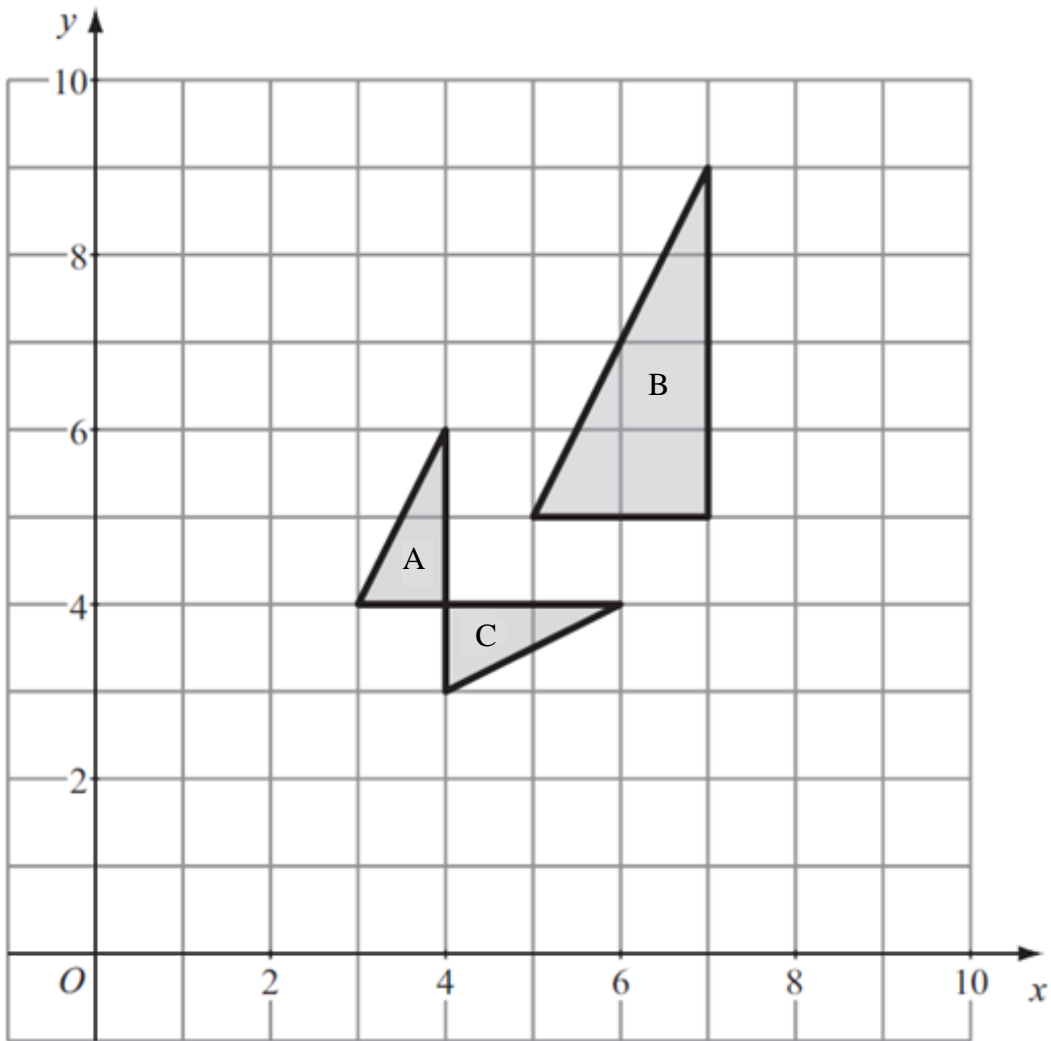

.....
(2)

(e) Give an interpretation of the gradient of your line of best fit.

.....
.....
.....

(1)
(Total 8 marks)

Question 20.

(a) Describe fully the single transformation that maps triangle A onto triangle B.

.....

(2)

(b) Describe fully the single transformation that maps triangle A onto triangle C.

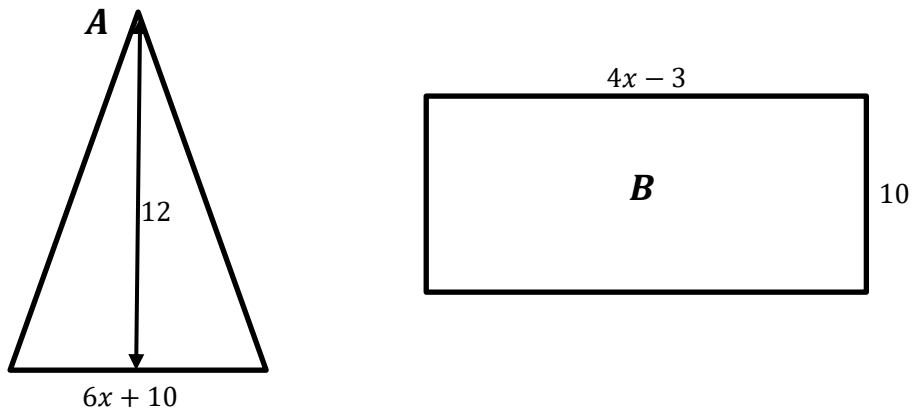

.....

(2)

(Total 4 marks)

Question 21.

Here is a triangle and a rectangle.

All measurements are in centimetres.

The area of triangle A is the same as the area of rectangle B.

Work out the perimeter of rectangle B.

.....cm

(Total 5 marks)

Question 22.

$$H = \frac{y^2 - w^2}{2\pi^2}$$

$y = 5, w = 11$

Calculate the value of H .

Give your answer to 2 significant figures.

$H = \dots\dots\dots$
(Total 3 marks)

Question 23.

The table shows the number of letters delivered to the 30 houses in a street.

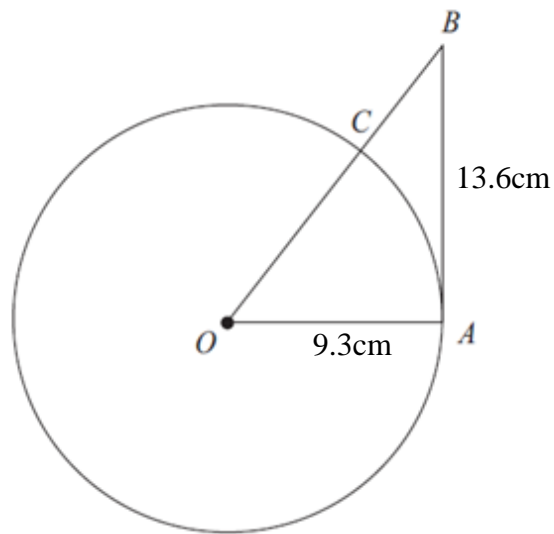

Number of Letters Delivered	Number of Houses (Frequency)
$0 < L \leq 2$	10
$2 < L \leq 4$	8
$4 < L \leq 7$	5
$7 < L \leq 10$	3
$10 < L \leq 14$	4

Calculate an estimate for the mean number of letters delivered per house.

Give your answer to the nearest integer.

$\dots\dots\dots$
(Total 3 marks)

Question 24.

A is a point on a circle with centre O and radius 9.3cm .

AB is the tangent to the circle at A .

$AB = 13.6\text{cm}$.

OB intersects the circle at C .

Calculate the length of BC .

Give your answer to 3 significant figures.

.....cm
(Total 4 marks)

TOTAL FOR PAPER IS 80 MARKS
