

# Protek Stable Coat

**Container sizes:** 5 litres & 25 Litres

## Product Description:

A water-based micro-porous acrylic coating that incorporates an ultra-high performing water repellency additive that uses nanotechnology to deliver an extreme hydrophobic layer of protection.

Protek Stable Coat offers excellent long term protection for all other types of timber buildings and softwood garden furniture.

This coating is designed for the water-proofing of pressure treated buildings.

## Suitable for:
